

SYMBIOSIS INSTITUTE OF TECHNOLOGY, NAGPUR

Symbiosis International (Deemed University)

(Established under section 3 of the UGC Act, 1956)

Re-accredited by NAAC with 'A++' Grade | Awarded Category - I by UGC

Experiment No.: 7 Name: Vansh Mahant PRN: 24070521038 Section: A Batch: A1

1. Experiment Title:

Part A: To Do List App — a task manager using HTML, CSS and JavaScript with add, edit and delete functionality via dynamic DOM element creation.

Part B: Registration / Sign Up Form — a web form using HTML, CSS and JavaScript demonstrating (a) accessing & manipulating form elements, (b) validating user input, and (c) handling form events (submit, change, focus, blur, input, reset).

2. Software/Tools Required:

Google Chrome (Web Browser), Visual Studio Code (Code Editor), Browser Developer Tools / Console, HTML, CSS, JavaScript

3. Experiment Program Code:

Part A — To Do List App

5. Result/Conclusion:

A To Do List app and a Registration/Sign Up form were successfully designed and implemented using HTML, CSS and JavaScript. The To Do List demonstrates dynamic DOM element creation, event listeners, and list manipulation (add/edit/delete). The Registration form demonstrates accessing and manipulating form elements (populating date dropdowns, toggling password visibility), validating user input (name, username length, email format, password length and match) with live feedback, and handling a range of form events — focus, blur, change, input, reset and submit. This experiment reinforced DOM manipulation, form validation, and JavaScript event handling.
