Vansh Mahant

B.Tech Computer Science Student · Machine Learning, NLP & Data

vanshmahant3@gmail.com · linkedin.com/in/vansh-mahant-5a606a2b0 · Nagpur, India

SUMMARY

Computer Science Engineering student (CGPA 7.49) with a published patent application on machine-learning spam detection and 2026 internships in data analysis and AI/ML. Seeking internship and placement opportunities in software development, data analytics and machine learning.

EDUCATION

B.Tech, Computer Science & Engineering — Symbiosis Institute of Technology, Nagpur — 2024 – 2028 (expected)
Current CGPA 7.49 · Currently in 5th semester

Class XII — Nirala Vidyalaya — 2024

Class X — Eastern Point School — 2022

EXPERIENCE

Artificial Intelligence & Machine Learning Intern — Soft Nexis Technology — 24 May – 24 Jun 2026

- Completed the internship programme; certificate cites strong team coordination, communication and attention to detail.

Data Analysis with Python Intern — Maincrafts Technology — 20 May – 20 Jun 2026

- Completed the internship programme; certificate recognises dedication, professionalism and commitment to learning.

Virtual Intern — ServiceNow University · AICTE · SmartBridge — Completed Apr 2026

- Eight modules: ServiceNow administration, Agentic AI, Flows, Automated Test Framework, Reports and CSA exam preparation.

PROJECTS & RESEARCH

Intelligent Spam Email Detection using Machine Learning — Patent application — Published 20 Mar 2026

- Named co-inventor (Application No. 202621011703 A; applicant Symbiosis International): text pre-processing, TF-IDF features and Naive Bayes / SVM / Logistic Regression / Random Forest classifiers with cross-validation. The published abstract reports 96.2% accuracy with Naive Bayes.

TalentLens — AI-Based Resume Ranking & Candidate Matching — Research study — Design stage

- Reviewed five IEEE papers and specified a hybrid explainable architecture: Sentence-BERT matching, Knowledge–Skills–Abilities weighting, rule-based validation and LLM-generated explanations.

Personal Portfolio Website — HTML, CSS, JavaScript — 2026

- Designed and built a responsive, data-driven portfolio with a filterable certificate gallery and a validated contact form (JavaScript Lab CA3).

SKILLS

Languages	Python, Java, C, C++, SQL, JavaScript
Data & databases	SQL, data analysis with Python, Generative AI for databases
AI & ML	Machine learning, NLP, Generative AI & LLMs, Retrieval-Augmented Generation, AI agents
Tools & platforms	HTML5, CSS3, Ansible automation, ServiceNow

ACHIEVEMENTS

- **3rd position** — Hack-O-Week 3.13 (TechWhiz), IEEE club, SIT Nagpur (2024–25)
- Participant — SITNovate 2.0 and CodeSprint 2.0, Enthusia 5.0 (26–28 Feb 2026)
- TiE U Program — Startup Showcase, TiE Nagpur
- **2nd position** — State-level abacus competition

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional (Oct 2025)
- Red Hat: Ansible Network Automation DO457 (2026); Python AD141 (2025)
- Udemy: Mastering Agentic AI (Aug 2026)
- Infosys Springboard: DSA using Python, Parts 1 & 2 (2025)
- MindLuster: Generative AI for Database Engineers (2025)
